TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts, I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."

From Messrs. Patrick Mahon, junr., Cirisco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

## LATEST NEWS.
PRESS TELEGRAMS

*The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—*

Montevideo 8th.

Great enthusiasm here for your Exhibition. The exhibits are on view at the School of Arts and are really splendid—furniture, saddlery sculpture, paintings, jewelry, books, 300 kinds of minerals etc. There are two large portraits of Presidents Roca and Vidal. The Oriental Ladies' specimens of work are also fine.

Quite a crowd of friends accompanied Dr Avellaneda to the pier, to wish him farewell. Amongst them were the Argentine and Spanish Ministers, the Argentine Consul General, Drs. Castro, Zorilla de San Martin, Salvanach, Magariños, Albistur, Mendez and many others: also deputations from all the literary Societies. President Vidal sent an aide-de-camp to represent him, with a gorgeous bouquet for Miss Avellaneda. Santos sent his Secretary. The Capitania gig took the ex-President to the steamer.

There was a stiff discussion in the Deputies as to whether Dr Venturu Fernandez should be recognized as member for Paysandu, he having been in the Argentine service. He will be thrown out.

The Austrian Minister, Baron Gravenegg, and Dr Alcorta also sail to-night for B. Aires.

Lagartija is off to Europe, and all the bull-fighting crew are in despair.

Valpariso February 7th.

The *Patria*, a Bolivian paper, says that that country should make peace with Chile, as she is powerless to make war.

Rumours of truce well received in La Paz.

Ribero and Garcia, ex-Ministers of Montero, are in prison in Lima, Pierola is there, but as free as a bird.

Montevideo, 9th

Drs Jacob Varela, Placid Ellauri, and Alfred Acevedo will represent this country at the Pedagogues' Conference in the Exhibition.

The Bourgogne, from Marseilles, brings news foreshadowing the fall of Gambetta, President Grevy was utterly opposed to making the 'scrutin de liste' a Cabinet question, but Gambetta persisted. The Radicals of the Left warned him that they would vote against him if he did.

Tripoli telegrams announce a massacre of 3000 persons in the Sahara, near Ghadames.

The Turkish mission to Berlin has failed, and the Sublime Porte is now seeking an Italian alliance, and has sent decorations to Emperor of Austria and King Humbert.

Cardinal Schwarzenberg very ill of erysipelas.

Four merchants here—A Falice, A Risi, C Supparo and Viccara have been decorated by King Humbert with the Order of the Crown.

Bourgogne brings 400 passengers.

## RIVER PLATE DEBENTURES.

As will be seen by the advertisement from the *Times* which we give hereunder, they have begun in London to issue 5 per cent Debentures on loans, investments, etc, made in the River Plate. The following is the notice—

"Five per cent Mortgage Debentures—The River Plate Trust Loan and Agency Company, (Limited.) Capital £1,000,000. Already subscribed, £500,000. Called up £100,000 leaving uncalled £400,000. Borrowing powers limited to the amount uncalled on the subscribed capital.

Directors—
Edward Ashworth Esq.
Frederick Fearon, Esq.
J E Gorst, Esq. Q C., M.P.
Hon. Sidney Herbert, M.P.
Lord Norreys
John Taylor, Esq.

This Company are now issuing Debentures at the above rate for five years. Forms of application can be obtained at the office of the Company, 57, Moorgate-street, London, E.C."

The banking company referred to in the above notice has not yet opened in the Plate, but has advertised for a manager and will, doubtless, in a few months, begin operations here. The amount paid up on the shares so far, we believe, is only £50,000, but the directors have power to make calls on the shares to the extent of one million sterling, which, for the class of business that the bank proposes to do, must be regared as a very large capital.

This business of debentures is now carried on to a vast extent in the London markets and so far found to work well, since, through the medium of a Loan and Trust Company, and its guarantee, properties in foreign countries are at once available for the London market.

Thus, for instance, the R. Plate Trust Company makes a loan, say at 7 or 8 per cent, to an estanciero or sheepfarmer in the River Plate, guaranteed by his land, and on this mortgage the Company issues Debentures in London at 4½ and 5 per cent, which are purchased by capitalists in London as secure investments, having the double guarantee of the Company and the property pledged. In fact, were we to call these Debentures London Cedulas, it might make the business all the more intelligible to many of our readers.

Alongside the River Plate Trust loan advertisement are others for New Zealand, Canada and Australia; we give the following three as the freshest, and to show people out here how in such matters they work the oracle in London—

Mortgage Debentures of the New Zealand Agricultural Company (Limited). — Capital £1,000,000. Trustees for Debenture Holders.

Sir Daniel Cooper, Bart. K. C. M. G.

Sir Sydney Waterlow, Bart M. P.

Sir W. J. M. Cunninghame, Bart V.C.

Directors:—
George Meredith Bell Esq.
W J Mudie Larnach, Esq., C M G late Colonial Treasurer and Minister of Railways, New Zealand.
Major-General Patrick Maxwell.
Rear-Admiral R C Mayne, C B.
Sir T Selby Tancred, Bart.
Sir Julius Vogel, K C M G late Premier of New Zealand.

The Directors are issuing Mortgage Debentures, bearing interest at 5 per cent. for three years and upwards.

These Mortgage Debentures are a first charge upon all the Freehold and Leasehold Estates, and other property of the Company, including its uncalled capital. They are issued free of expense to the lender, in sums of £50 and upwards, and either to bearer or registered holder.

Full particulars on application at the offices of the company, (where the forms of debentures and the trust deed for securing the same can be seen), 110, Cannon-street, London E C.

*H S Valentine.* Manager.

Debentures at 4½ per cent. per annum.—The South Australia Land Mortgage and Agency Company, Limited. Capital £1,000,000, Subscribed.

Directors—
W Richardson, Esq., Chairman.
C J Hegan, Esq.
W B M'Gavin, Esq.
H J Norman, Esq.
F Walters, Esq.

The Directors are issuing Debentures for five or seven years, secured on all the property, mortgages, and other effects of the company, and further guaranteed by the uncalled capital, amounting to £563,848.

For particulars and forms of application apply at the offices of the company, No. 2 Moorgate-street-buildings, Moorgate-street, London, E C.

*George A. Bartleet*, Secretary.

December 29th, 1881.

Five per cent mortgage debentures interest payable by quarterly coupons. Debentures of £50, 100 and 500, issued by the Omnium Securities Company secured by over 700 mortgagee on freehold lands and property in Canada (and by the capital of £200,000 and entire assets of the Company). Prospectuses, with full particulars, to be had on application to the Secretary, at the office 52, Queen Victoria street, London E. C."

We think we are safe in saying that for New Zealand alone there are some scores of these Trust Companies, whilst for Canada and Australia they are equally numerous.

It shows how we stand in the Plate that to the present we have not out in the London market a single Debenture on a River Plate mortgage; but in this as in other matters we are growing fast, and the accumulation of capital in Europe is such that soon River Plate properties will be mobilized in the European markets as much as other properties in far less favored countries.

## LONDON LETTER
(*From our own Correspondent*)

THE AGE OF TIPS.

January 14th, 1882.

Two men in the Ordnance Map Department, named Green and Hawkins, have just been sentenced to two years' hard labour for embezzlement. Their crime consists in selling the Government maps at full price, entering the sales at trade price and appropriating the difference, which amounted to the absurdly small sum of 7s. 1½d. in one case, 9s. 6d. in another, and 15s. 6d. in the third case. They were both skilled men, of long service in the Ordnance Office, bore excellent characters, and were prosecuted by the authorities with regret and strongly recommended to mercy. The Recorder, nevertheless, gave them two years. I allude to this case, because it illustrates a very sad tendency of the day and is not confined to any particular class. This is the age of 'tips,' 'differences,' 'commissions' and 'pulls.' In business, particularly amongst the younger men, the eagerness to 'do Jone's' neighbours as they do you,' is so intense and common that it is no longer considered a crime to extract an extra fiver out of a transaction by the suppression of the truth. These little smartnesses are openly boasted of by men one meets in good society, men of gentlemanly manners and bearing, and to any one of whom, in his private capacity, one would have no scruple in lending a fifty pound note. Sharp practice in business has not been unknown in any generation, but it has assumed a peculiar phase in the present business generation, who, as a rule, attend to their aspirates, are better educated and decidedly dress better than their fathers. But they never go to church, they never get up on Sunday till late in the afternoon, except on the summer days when they spend their Sabbaths on the Thames, with companions of either sex; or they attend afternoon receptions at aquatic families where there is music and dancing. They never read. They never think of but two things—their daily business and their nightly amusements: consequently, having thrown aside the teachings of their Church Catechisms, and having no self-imposed or self-taught substitute, their minds are morally blank. And yet they are charming fellows and mostly without vice, and in many respects far preferable to the old church-going sinner who went snivelling through life, robbing systematically. The charm of the new generation of swindlers is, that they are not hypocritical. 'My dear fellow,' they tell you, 'they all do it, and if you dont do it you go to the wall.'

This can only be a temporary condition of society. In course of time business would become impossible: the new phase has arisen as an outcome of the 'new departure.' The middlemen in the struggle for existence have had to resort to any 'advantage' thrown in their way. You will remember, perhaps, a case not long ago, in which a highly-respectable buying-house in Manchester transacted business for a house in Bombay. By agreement they undertook to buy for the firm in India at or within 5 per cent. of the market price. The agreement of the firm was a very silly one, because the Manchester house chose to interpret market price 'in their own way.' Hence, when the firm revised their accounts and began to make inquiries as to prices, they found that for years they had been paying far more than the market prices, and in some instances 50 per cent. more. They brought an action against the Manchester house and lost it. Their lawyer advised an appeal, and fortunately the principle of equity ruling in the higher court reversed the decision. But still the case ended virtually in a compromise, as the firm of merchants had put themselves into the power of the buyers from want of a specifically worded contract. It may be added that lawyers and counsel are grossly ignorant, and of course favour expenditure and litigation in cases which men of business or a Tribunal of Commerce would see and settle at once.

Another case of buying-houses came under my notice quite lately. The house undertakes to buy direct from the manufacturer for a firm in Bombay for 5 per cent. commission. The partner who does the buying business concludes the purchase, but says bluntly to the manufacturer, 'I must have my 1 per cent. out of this.' The manufacturer is of course a little astonished that a principal in a firm should want 1 per cent. for himself. It is explained to him that it is the custom, and he can do it or leave it. The account is of importance perhaps to the manufacturer, so he says 'very well, I give you a note of hand for the 1 per cent., but I tell you frankly that I cannot afford to lose it, and I shall stick it on in the price.' So that the merchant in point of fact pays 6 per cent. commission to the buyer.

The whole race of buyers are a scandal in business. They are fawned upon and 'dipped' in all directions and the consumer pays the shot. From what I can discover, I should not hesitate to say that the merchant abroad who pays through agents not his own people, and even thus on the understanding that he has not a buying partner who wants 1 per cent. to his own cheek, will in the long run pay quite 15 per cent. above the prices he would pay to the manufacturer direct.

The newspapers have just published rather ostentatiously a list of the scions of the aristocracy who are now 'sworn brokers' in the city of London. The question is, will the names of Lord This or the Hon. Mr. That, painted in black and white, or printed on brass on some dingy doorpost in the city, improve the moral tone of Mammonia? It is more likely to make aristocracy cheap and without influence on manners, and to introduce amongst business men more pretentiousness, less steadiness of habits and more of the vulgar music hall jingoism, the Jew-baiting intolerance and horsey indifference to serious life that are common in the West.

## EDITOR'S TABLE

The fire on board the Lamport & Holt steamer Ptolemy, now in the Roads, was the sensation of yesterday. The rumour got afloat about noon, and it was said on the Bolsa that the vessel had been scuttled, Mr Norton, the active agent, went off at once in a special steamer with fire engines etc. The fire, we believe broke out in the hold early in the morning, and all day long the lighters were alongside receiving the cargo, chiefly wool and flax, which was rapidly unloaded. Mr Norton had not returned when we were going to press, so we can give no further reliable particulars.—P.S. Mr Norton just returned. The fore compartment was sunk, 12 bales taken out, and the fire all over at 6 p.m.

Although the two burning questions of the day—the bull-ring and the postponement of the Exhibition—were looked on as settled yesterday, the heat was very severe; not up to the 'baffles description' point, but too near it for comfort. As the day wore on the heat and the signs of rain increased.

There was a distinguished crowd on the Mole yesterday to welcome Dr. Avellaneda, Baron Gravenegg, Austro-Hungarian Minister, Dr. Alcorta and others who have all returned from their bathing trip to the sister city. The ex-President of the Republic had a splendid ovation when embarking on Wednesday night, all the High Life of Montevideo assembling on the mole to bid him farewell.

The rumours of Wednesday as to Dr. de la Plaza resuming his seat in the Cabinet Coach were more accentuated yesterday, He had a long conference with President Roca on Wednesday.

Everybody spoke yesterday of the successful shout of public opinion that knocked the bull-fighting 'spec' on the head. Seldom has a matter been so speedly disposed of; and if the same public opition could be brought to bear with equal force and unanimity on numerous other abuses, this would soon be a very different country. However, it will come in time.

An interesting chapter on Ireland will be found in our Supplement. The poor landlords appear to be in a terrible fix. It is they, and not the tenants, that will have to emigrate, and we advise them to come this way with whatever remains to them; sheep and cattle always pay the rent most punctually.

The Tucuman papers to hand are decidedly dull. There is nothing fresh about sugar, cedar, or tobacco, and the only news is that there are no fewer than ten fashionable marriages on the tapis, and that the 'vigilantes' of the town have taken to stimulants to such an extent that one half the force is continually occupied in 'running in' the other half, for being drunk and disorderly. This is an unpleasant state of things, but we suppose the heat of the weather is answerable for it. The *Razon* complains of the local job-masters, who turn out the nicest hackney carriages in the whole republic but allow the Jehus thereof to go not half, but almost wholly naked, the little clothes they have being in rags. This is really quite 'chocante.'

We have received a letter addressed to "Mr Osti Pio, *Standard* office, Calle Corrientes, between Florida and San Martin". The sender must be a goat; but, perhaps, Mr Pio is with our esteemed friends Messrs. Kidd & Co.

The Bolsa broker of Buenos Aires are, after all, wretchedly below the mark. Christmas has come and gone without their taking the slightest notice of it, as a corporate body. Not so in Wall Street, New York, where they keep Christmas in a becoming way, as will be seen by he following extract from the New York *Bulletin*:—A committee of the Stock Exchange is arranging a programme of festivities for Christmas Eve. Gilmore's band has been engaged. The galleries will be reserved for ladies. The performances will begin with a comic procession, after which each member will be allowed to do what he pleases, the object being to make the hilarity as impromptu as possible. As much as $3,000 has been engaged for this purpose, this including the gratuities to the employes" Next Christmas we hope to see ladies in the Bolsa, and the Italian King and all his confreres capering about in a comic procession, to the strains of a 'banda de musica'.

The Wax Works in Calle Corrientes continue to draw. The place is now much more pleasant than when first opened, as the blinds have all been taken away, and the ventilation is good. We have no space for a detailed account of these Wax Works; they must be seen to be appreciated. Suffice it to say that they have proved a decided success wherever exhibited, as shown by the numerous extracts from the newspapers, which the 'empresarios' have appended to their very succinct Catalogue.

A petition to Governor Rocha has come down from Tucuman, asking for a branch of the Hypothecary Bank there. This can be done under the new Law for this bank.

The paid-off Bonds of the Empresstito Popular were committed to the flames on Wednesday in the Provincial Bank. Never was there a more unpopular loan than this same Empresstito Popular.

A magnificent album, it is said, is being prepared for General Roca, for his having settled the Chilian Question. General Viejo Bueno is President of the Committee of gentlemen who have the affair in hand.

Messrs Jacobsen's book store in Calle Florida is now crowded daily with love-sick swains of all degrees, buying Valentines for their 'novias.' The demand is enormous, and not confined to Britishers. As for the supply, it is inexhaustible and of the most recherché kind. We feel it our duty to warn our fair unmarried readers to be cautious. We are assured that most of Messrs J.'s male customers do not confine themselves to *one* Valentine, but buy a lot, and one utterly, so utterly! heartless wretch absolutely went the length of buying TWENTY! This gay and wholesale deceiver deserves to be lynched, and we hope the twenty recipients of the Valentines will find him out and show him no mercy.

A model of a cattle truck has been made for the Continental Exhibition by the men in the Central Argentine Railway workshops at Rosario. It is made entirely of native wood, and beautifully finished.

The telegrams from the West Coast show that the voice of Bolivia is still for peace. There are no warriors in that region, in or outside the Senate. Peace at any price is the cry in Bolivia now. Poor Peru may well pray to be saved from her friends.

The ladies of Balvanera parish are getting up for Carnival a comparsa that will drive round the Cor so in several wagonettes. This is something more 'comme il faut' than the dirty furniture vans. Venus and Helen themselves could not look their best stuck up in a 'carro de mudanza.'

Albums are the order of the day. We perceive that the people of Lobos are going to present one to their worthy Juez de Paz, as a mark of their respect and esteem, and the Police Commissary is to get a stick and a revolver, no doubt as a hint to use both on evil-doers.

The Sea Serpent has been seen in the river, near Corrientes. The monster frightened the wits out of the good Correntinos, who saw it dive four times and return to the surface. Some of the spectators say it is covered with hair, and others that it is very like a whale. We lean to the latter view.

The mails from Paraguay bring little or no news. The exhibits for the Continental Exhibition have come down, and are very varied and valuable as raw products. A Centro Comercial is about to be established in Asuncion.

There is a flutter in masquerade ball circles in Rosario, owing to the police of that town having expressed themselves as quite shocked at the 'can-can furioso,' and forbidding it to be danced in future, at least in the 'furious' stage. A young Buenos Airean visitor who 'tried it on' last week, thinking he was at the Rink or Variedades, was locked up and had to pay a smart fine to regain his liberty.

For people who cannot go to Montevideo for the bathing season there is no place like San Isidro, and no place in San Isidro equal to Vignolles's old and well-known hotel. The sojourner there has comfort, courtesy and a splendid cuisine at his command day and night. A morning walk along the river side and such a breakfast as Vignolles gives, is the acme of matutinal enjoyment. At and after dinner hour the attractions of San Isidro are equally potent.

Mr F. P. Hansen's report to the Post Master General shows that the Post Office has something to say for itself in the public complaints against it. In its turn, as Mr Hansen proves, it has its just complaint against the Public. It appears that, no matter at what hour the mail closes, the public continue to post letters and then grumble furiously when their European or other correspondents receive them by the following mail, marked 'Despues de hora". Since January 1st the G.P.O. has established that letters posted "despues de hora" will go forward by the mail of the day, if they bear the extra stamps provided by law. This system prevails in Europe. In spite of this facility, the public have not responded to it. Of over 500 letters posted late for the Equateur "*most of them*" says Mr Hansen, "*from mercantile firms*", only 50 bore the extra stamp!! Mr Hansen, nevertheless, sent them on, but says he will not do it again, and he is quite right. This country is very young in postal matters, or such attempts to "burlar" the regulations would not be made, or their failure made a source of complaint.

Nr. 11974 won the 8,000 pats in the San Luis Lottery yesterday.

All the idiots in town were inexpressibly relieved yesterday on learning that the use, or rather abuse, of 'pomitos' will be allowed this year in the Corso. Next year, no. Next year? Faugh!

The two 'Isabelles' who go round the fashionable cafes and restaurants every evening, selling bouquets, fell out on Wednesday night in Calle Corrientes and nearly tore each other's eyes out. When the nearest policeman tried to arrest them, they joined against him and he had, as our American relatives say, 'a bad time of it. The girls were eventually 'run in.'

It is calculated by an expert that over 250,000 matches are struck daily in Buenos Aires, for though the ladies and children who form so large a proportion of our 250,000 odd inhabitants may not come up to the 'scratch', yet the single match per head of population is far exceeded by the cigarette-smoking 'lords of creation.' Allowing that two seconds are spent in lighting each match, which is moderate enough, we find that 590,000 seconds, or 5 days, 18 hours, 5 min., 30 sec., are spent daily by Buenos Aireans in striking matches.

Mr. Santiago Estrada's article in yesterday's *Libertad* about the attempt to introduce bull-fighting into this country was much praised by everybody.

Madem'oiselle Borghi-Mamo, the prima donna, visited the new theatre in Calle Florida yesterday, tried her superb voice, and declared that the acoustic properties of the 'salle' are all that could be wished.

A tailor, a peon, an apothecary and a 'billetero,' all of Belgrano, pulled off $100,000 m/c each in the last Montevidean Lottery. Cloth, 'changas,' castor-oil and chances will now, we suppose, be all thrown to the dogs by this lucky quartette.

The road between Ensenada and Tolosa is being repaired, and three engineers are making surveys for a canal between the two places. It is pretty clear that Ensenada will be the new chief town of the province. Boca and Ensenada Railway shares ought to be good buying.

Prince Bismarck, who is the object of much private generosity on the part of his own countrymen, has just received a present of a tame wolf from some Russian Prince—a zoological specimen which will form, it is to be hoped, an agreeable companion to the famous Reichund, than whom there is no more constant adherent of the Reichskantzler.

## DONT EMIGRATE TO THE PLATE.

To the Editor of the *Standard*.

Sir,

I have reason to believe you are mistaken, regarding the origin of the placards 'Don't emigrate to the Argentine Republic', of which you treat in to-day's issue.

When I left Liverpool, not long since, it was reported that the authors of the placards were Irishmen who had returned to Ireland disgusted with this country, and not United States and Canada emigration runners, as you state.

This fact destroys your train of reasoning which on the whole is rather weak. Should curiosity be awakened, and the facts discovered that security for life and property exists but in name, that men are left in prison for years without a trial, and that taxation, already so heavy, is being continually augmented, there can be no doubt the discovery would be anything but pleasing; and I fancy the more Irishmen know of the Plate, the less likely they are to come to it.

For the same reasons, it is simply absurd to compare this country with the States as a field for immigration, and shews a lamentable amount of ignorance on your part regarding the prospects and treatment of immigrants to that country.

Your article bears the impress of having been written to please the Government and not to state matters impartially, which would perhaps be in better taste and more in accordance with your mission as a journalist.

*Subscriber.*

Buenos Aires, February 9,

1st—We have to thank our correspondent for ventilating this question, which calls for remark. We may of course err in our opinion, but facts stand.

There are in Ireland more returned Irishmen, disgusted with the States, Canada, New Zealand, Australia and South Africa than from the Argentine Republic.

2nd—Emigration business in Great Britain to-day is a *trade*; the placard we referred to has much of the trade stamp on it, since besides cautioning people against the Plate, it advises them where to go.

3rd—It is absurd to compare the States, or Ireland, or Canada, or Australia with the Plate, and not even the States can produce in the farming line men who in a life time have made such independent fortunes as the Irish sheep-farmers of Buenos Aires.

4th—As for the charge of so many parties remaining so many years in prison untried and unpunished, it is to be regretted, as the villains who complain, were they in England or the U. States, would have been hanged long ago. Taxation in the Plate is not so excessive as our correspondent represents, and as for life and property, at least the railway trains here are safe.

5th—If correspondent knew how little the Government cares whether Irishmen come to this country or not, he would be less ungenerous in his remarks about our writing to please any Government. Our article bears only the impress of generosity and friendship towards the country where we, with so many of our fellow countrymen, have found health, wealth, prosperity, and a happy home.

Operations in the gold market this morning were more limited than yesterday. There is a little more firmness in the market, especially for end of March, attributed to the fall in the Bank's rates of exchange. Brokers on the Bolsa attach much importance to the meeting at the Government House between Dr Plaza and the Government Ministers. Various are the surmises as to the topic of the interview, and it is generally thought that the finances of the Treasury were discussed; if so, it is nothing less than a slight to our actual National Minister of Finance, Dr Romero. The market well knows Dr Plaza's financial views, and the hue and cry raised by a colleague as to his appearance being the signal for new taxes is nonsense; Dr Plaza, when Minister of Finance of Dr Avellaneda in the height of the crisis showed the basis of his measures and operations in his daily dealings with the Provincial Bank. People on the Bolsa have all their attention fixed on the National Cabinet, and changes in this country are so brusque and so unforeseen that none would be astonished to see a general change of affairs in the Casa Rosada. All agree in the market that the Government is "hard up", and that some means must be bought to overcome these periodical squeezes in the Treasury; the interview at the Casa Rosada and the antecedents of Dr Plaza point to the refuge.

The Provincial Bank has lowered its rates of exchange as follows:—

On London, 49½
On Paris, 5.22
On Antwerp, 5.23
On Genoa, 5.22
On Hamburg, 4.22

The measure is a warning to the market, and many attribute same to telegrams from Europe to the Bank. The effect on the gold market was slight only, but the new rates affect private operations, and rates are now quoted in the market at 49⅜ ⅝.

Cedulas continue firm, although prices shew some weakness since yesterday. Operations in Series A were done at 99⅝, and the market closes with buyers at this rate. In Series E nothing was done.

The speculation in National Bank Shares continues with abated excitement. The bulls pronounced the situation of the market as at a stand-still, and in fact the animation in the ring is no longer what it was in the palmy days of November, when shares changed hands by thousands. The market at present is pretty indifferent, and the bulls laugh at the great efforts of the bears to drive down the stock, since the beginning of the month; the brokers who sold last night at 128 were right when they stated that they would buy back to-day at 127. The market opened firm at 127½ this morning, rose to 128, fell to 127, and closed at 127½ for the end of month. Cash operations were not effected. The heavy holders of shares evidently keep their shares yet, as the market would tumble immediately otherwise, and it is this fact that animates the bulls and infuses some hopes of a rise among a few outsiders who hold shares.

In Primitive Gas Shares we note a sale of 110 at 1,900 m/c. Holders in the market refuse to sell, as they expect to get a handsome dividend next month.

The sales at the ring were as follows:—

Gold—
For cash 18,000 at 25.05
For Feb. 11th 10,000 25.05
For Feb. 28th 15,000 at 25.10
For March 31st 10,000 25.25
Sales, 35,000.

Cedulas—
For cash A 13,900 99⅝
Nat. Bank Shares—
For Feb. 28th 3,450 shares 127¼-128-127¾ to 127½-127-½

Old Gas Co. Shares—
For cash 110 shares at $1,900

Advices from Santa Fe and other Provinces up rivers give melancholy news of the locusts; the maize crops have greatly suffered in several districts, and prices have risen slightly.

There were Government Bills offering in the market to-day at 9 o/o per annum; but they find little or no acceptance.

Discounts were slightly easier to-day at 8 o/o per annum

Telegrams from Antwerp state that the auction closed weak, and that only one-half the number of the bales offered were sold.

The sale of 700 squares of land in Lujan is reported at the rate of 3,500 m/c per square: this is a magnificent price.

The arrivals in the Once this morning were few, and little business doing: good wools in demand.

The Porteña arrived to-day.

The Araucania is expected to-morrow in Montevideo.

The Borgogne has arrived with 400 Italian emigrants, this is better than specie.

Some exchange was done to-day at 49¾-⅞; no takers at the Bank's rates.

The water-committee of Flores meets on Monday night at 8 p.m. All the neighbors of Flores are earnesty requested to attend the meeting of the committee and to discuss the best means of getting water.

At an early hour this morning there was a rumor floating in the atmosphere that the Lamport & Holt steamer Ptolemy was on fire; telescopes were at a premium on the Paseo Julio, and the distance of the catastrophe lent to the rumor exaggerated features. It was subsequently asserted that the steamer was under water. The facts were that last night the bales took fire and that they continued burning until this morning; pumps had to be fetched for getting out the water. Several insurance agents left the mole head amongst a crowd to witness the scene of danger, as the bales of wool were insured.

At afterhours 1,000 Cedulas of Serie A were sold at 98⅝; many people attach much importance to the request of the Tucuman Government, and merchants for the establishment of a branch of the Mortgage Bank up there. We really do not see why every Provincial capital should not have a branch to extend operations and credit. Where these branches are really wanted is in the small towns of the camps of Buenos Aires, where credits are in far better hands than up in the Interior.

Paraguay has sent 100 boxes of exhibits to the Continental Exhibition; they comprise caolin, salt, timber, and a precious collection of medical plants.

A good lot of wool was sold in Montevideo to-day, according to telegrams, 400 bales and over 30,000 arrobes.

The Galileo brought out £25,000 stg. for one of our foreign banks.

Every steamer arriving now in port, whether from Europe or from the rivers, brings hundreds of boxes for the Exhibition. In fact the arrivals are much heavier than the Club Industrial ever anticipated, but we are much afraid that there will be a great sameness about the exhibits arriving from the Interior.

At a late hour some gold sales were effected for cash at 25.05, and a fraction underneath, and for end of March at 25.25; the latter rate is firm for that date. In National Bank Shares about 2,000 shares changed hands for the end of the month at 127¼ and 127. The market closed at the latter rate. Much is expected from the report of the 'Comision de Cuentas,' which will appear soon. In the document in question, it is said, all the charges against the Bank will be reported, and the situation of same detailed before the public. The market bears a very firm aspect for the moment.

The gold discounts of the Bank have reduced the gold reserve by about 600,000 $f., as can be seen by the balance-sheet for last month, whilst the paper money deposits increased over one million, when compared with the previous month. The applications for discounts in gold at the Bank have been much more limited than was generally expected during last month. The circulation maintain its figure, more or less 18,000,000 $f.

An English company has proposed to the B. Aires Municipality to light the city with electric candles; a trial is to be made, and if accepted the company will deposit 80,000 pats in one of the Banks. In connection with electric-lighting, the apparatus of the Almirante Brown has been offered to the Continental Exhibition; the focus spreads a light of 30,000 candles over a circumference with a radius of three miles. The engines are seven horse power.

The Sales at afterhours were—

Gold—
For cash 10,000 at 25.05
For March 31st 20,000 25.25

Cedulas—
For cash A 1,000 at 99⅞

Packet privileges have been granted by the War Office to the steamer Scindia.

Commodores Py and Cordero have been appointed to examine the Brown naval training ship; there is some talk of putting new boilers in her.

The following real estate sales were reported yesterday at the escribanias:—

Sta. Fe No. 413, 12 m. 32 front by 39 m. 17 deep, for 4,240 pats.

Garantias, between Corrientes and General Lavalle, 7 m. 89 front by 18 m. 55 deep, for 1,300 pats.

Telegrams announce that the gunboat Uruguay crossed the Rio Negro bar and anchored at Patagones.

Two to 3,000 hides of the Sampayo saladero in Gualeguay have been sold at 47½ rls. gold placed in this port and payable in Montevideo; weight 50 lbs.

It appears that close on 100,000,000 m/c in the well known Empresstito Popular Bonds, issued during Tejedor's Government, have been officially destroyed; over 70,000 Bonds were consigned to the flames in the following distribution:—

40,310 of $100 m/c.
7,835 of $5,000 m/c.
16,724 of $1,000 m/c.
6,313 of $500 m/c.

The Contador, Tesorero General of the Provincial Credit Office, the President of the Provincial Bank, and Secretary, witnessed the process.

A morning colleague states that three engineers per order of the Provincial Government are making the necessary surveys at Ensenada for the construction of a canal 6,000 yards long by 100 yards wide, to unite the hamlet Tolosa, a species of deserted village, with the bay of Ensenada. The depth of this canal will allow the entry of the largest ocean vessels, but we think that the bay must first be dredged before this canal is begun. Furthermore Congress must decide the question, which means interminable delays.

The arrival of a Chuput packet, with a good passenger list, again drew attention to the trade with that colony. It appears that freight is at such a tremendous figure as $300 per ton, and an ordinary passenger pays $ 800, and may well invest $200 more in eatables. The immigrant trade downwards, we know, is an important one, and we are assured, from the best quarters, notwithstanding the 'motivado' cry that the place is full, will continue and increase if anything like facilities are offered. The 'Villarino', if we recollect rightly, makes the run in 3 or 4 days. Among the merchants interested there is certainly the feeling that the decreed port at Bahia Nueva is not what is just now required; some speak of a subvention, but the more practical insist that a small tugboat in the river would take away the excuse for these monstrous charges?

The following clearances are reported in Montevideo:—

Cordillera for Liverpool, 53 pipes and 116 bordalesas tallow. 10 bales wool, 211 boxes tongues; for Burdeos 23 bales wool, 6 do hair 23 do sheep skins, 1972 dyr cow hides; for Lisboa 2,500 dry cow hides, 78 pipes and 44 bordalesas tallow; for Rio Janeiro 882 parce's fruit, 1206 bags corn, 800 bales charque, 75 pipes and 50 bordalesas tallow.

Pampa for Havre with 1159 bales wool, 6297 salted cow hides, 190 pipes and 200 bordalesas tallow, 5 boxes jelly, 1 box austridge feathers 200 do potro oil.

Mozart Antwerp 1670 salted cow hides, 57 bales wool; for Liverpool 70 bales wool; for Galashield 60 bales sheep skins; for London 162 boxes tongues; for Rio Janeiro 200 rams, 278 boxes fruit, 300 bags corn, 700 bales jerked beef.

The following statistics of the Province of San Juan will be found most interesting. The figures refer to the numbers of squares under cultivation. The juice of the grape and alfalfa plots are the great wealth of San Juan; in fact alfalfa will be one day the great wealth of the Republic. There are 5,000 sq squares under vines in San Juan, which mean 350,000 bordalesas of wine; the yield per square is over 60 bordalesas, and no other country can come up to this Argentine Province in this respect. The figures of land under cultivation are as follows:—

The Montevidean Deuda Amortizable appears to be less shaky, and B. Aires brokers who luckily got rid of them think of buying in again at 16. Yesterday the differences on this debt were distributed on Change; the amounts are not heavy, but they always pay the trip to the R. Plate Trouville.

Advices from San Luis and Rio IV give very good news of the extension of the Andine Railway. The rails are 17 kilometers distant from the capital of the traditional "puntanos"; the locomotive supplants the old montonera and baqueano of the district, so well described in Sarmiento's Facundo. The greatest praise is bestowed on the activity of the promising Argentine engineer, Sr Villanueva; not long ago there existed no such thing as an Argentine engineer. The great drawback of the extension works is the want of hands; the earthworks now extend far beyond San Luis, and the nature of the country makes the labor a very arduous one; over 1,000 men are employed at the earthworks, but 2,000 more navvies are badly wanted, and the National Government has been informed of the fact. The order for 2,000 workmen in Europe answers the request of engineer Villanueva. The sleepers at present employed on the line are of iron, since the contract for quebracho ones has, as usual, fallen through, owing to the neglect of the contractor; and such things happen in a country where the quebracho is at hand, covering immense territories. The engines of the railway are bad, and new ones are very much wanted, owing to the heavy gradients of the new line. The station in San Luis is very fine, but advances slowly, as the bricks are few. The little town of San Luis, formerly a conglomeration of mud ranchos and pulperias, a miserable rendezvous of gauchos and poor "puntanos", is now turning over a new leaf; new buildings spring up like mushrooms, and the streets look just as well as those of Old Rosary or Tucuman. The engine will whistle in the streets before the middle of next April and Portenos may expect to see several families from that out-of-the way place at the Continental Exhibition.

The Tucuman Railway extension, we are sorry to say, is just the reverse of the Andine. The works progress very slowly, and the weather up there is as hot as in Panama. More navvies and engineers are wanted.

The National Minister of the Interior has placed the necessary funds aside for the branch line of railway to Chumbicha in Catamarca; the funds go to defray the expenses of surveys and plans.

The following returns of emigration in N. America shows how the bone and marrow of Europe is going to the Far West:—

"During December 23,963 emigrants arrived in New York, being 7,970 more than during the previous December, and making 456,000 during the year. The entire country emigration will probably exceed 550,080 when the reports are aggregated, thus showing 170,000 over the previous year. Fewer disabled persons than usual have arrived, while the Castle Garden officials sent back about 600 too old to work or suffering from chronic diseases, who had been shipped as a means of getting rid of them. Superintendent Jackson estimates that the emigrants brought $11,000,000 in money and effects with them, while $5,000,000 were paid to the American railways for transportation to their Western and Southern homes."

The land has been fractioned into 14 small lots and will be sold in one or more lots at option of buyers.

Lot Nro. 14 comprises the estancia house 'La Colorada', containing 6 rooms with papered walls, wooden floors and a surrounded by two corridors. There is a galpon 10 yards by 30 and another building of three rooms suitable for a mayordomo.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid informing this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determination to retire from business.

Zocune, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of Las Barrancas'.

## LATEST FROM IRELAND.

The following is the latest news from Ireland, which we find in the late London papers.

It is not for want of means that the farmers now refuse to pay their rents. Their prospects never were better. The cattle trade, as already stated, has improved, and the fear of American competition has declined. Last year the total exports were, in round numbers—cattle, 717,000; sheep, 711,000, pigs, 367,000. This year the exports have been cattle, 722,000; sheep, 715,000 pigs, 372,000. In each year there were about 32,000 horses exported. The Irish cattle trade appears to be more affected by the fluctuations of the English labour market and manufacturing enterprise than by the extent of American and foreign competition. American beef has found its way a little more into Dublin during the year, but there has been a great falling off in the imports of American bacon. The Irish pig has a better character than his American cousin. There appears to be no reason now why the farmer, with ordinary care and industry, should not live and thrive. He obtains high prices for his stock and produce; he has a good market even at home, and with revived trade in England the demand for his supplies increases, and with it also his profits. He has no longer the excuse that he has no heart to work, because his landlord might, as many have done, appropriate the value of his improvements The times are changed, the tables are turned, and he is master of the situation. The Legislature has practically reversed the positions. He is owner of the soil, while his landlord is only a receiver of rent (if he can get it). With his lease for 15 years and a convenant for perpetual renewal, at a rent fixed by himself and his neighbours, and with the sanction of his sympathetic friends, the Sub-Commissioners, the tenant is better off than the nominal owner of the fee. If the times prove more prosperous his alone will be the benefit, and at the end of the 15 years his good farming will be rewarded and his rent unchanged. If the times get worse he has still a wide margin to work upon with his rent now reduced, and at the end of 15 years a further reduction may be made upon principles which are known only to the Commissioners, and are acted upon, but not stated, in the face of the public. In any possible contingency he alone can be on the winning side.

But the question of the hour is, will he wait to reach, by a slow process, the end which the authors of the 'No rent!' manifesto tell him may be reached at once? He asks himself why he should pay a judicial rent, no matter how far below Griffith's valuation, if they tell him not to pay at all, and that he is the rightful owner of the soil. If his rent has been fixed he has time enough to consider whether he will pay it, but how many thousand tenants are there who have not their rents fixed, though they have asked the Court to fix them? Are they to be blamed for not paying what they declare to be rack rents? The Legislature has not required them to do so if they only show respect for the new land law by serving originating notices, though every other law may be defied. Have they not a persuasive plea? They are ready to pay when they know what is fair. When will they know it? And in the meantime, what is to become of the landlord? The provisions of the Act with respect to the settlement of arrears upon the half-loaf principle have been practically inoperative as yet, for the tenant is not willing to give the half loaf or even a crumb which falls from his well-filled table. Those who have had originating notices served upon them find their hands tied, and they are at the mercy of the tenants. They cannot settle out of court, except by consent, once the notice has been served; and when will the Commissioners decide the point? That is a question which no man can attempt to answer. There are now 12 Sub-Commissions in full work, and three Chief Commissioners. There have been about 70,000 originating notices served, and in three months' hard work the Sub-Commissioners have disposed of 550. In 300 of these there are appeals pending. When will the 70,000 be gone through and the rents finally fixed? Suppose that no more come into court in the next 15 years, the work could not be completed in the time. But if the tenants do not abandon the Act altogether, though it gives them at least a convenient excuse for withholding payment of their rents, there will be a continuous flood coming in, while the Sub-Commissioners try to bale it out with so many buckets. There is reason to fear that the Land Act, the great remedial measure which was to appease the country and make it peaceable and loyal, will either founder or be swept away by the revolutionary tide.

There has been a fall in railway dividends during the year, but not so great as might have been expected, and there were some signs of renewed activity. The general trade of the port of Dublin has been fairly good, and the Port and Docks Board are making improvements in the Docks and river which indicate confidence in the future. For many successive years there has been a progressive increase in the traffic of the port. The imports of foreign wheat show a decrease of about 20 per cent. This may be to some extent accounted for by the splendid potato crop. Ireland has, in fact, been able to pay some of the debt she owed to America for her seed by sending back the offspring of her splendid 'champions.' There has been an increase in the imports of Indian corn and a slight increase in the imports of flour, in which there is an extensive trade. The Irish fishery returns show a falling off in the take of herrings, but the mackerel fishery has been productive, and great preparations are being made for carrying on the fisheries next year. The horse trade is recovering from its depression. The Cork butter trade has profited largely by the lesson which has been taught by foreign competition, and the quality of the article has been so much improved as to cause an increase in the shipments this year to the extent of 20,000 firkins. It is to be regretted that the Irish manufacture movement has received a check in the abandonment, or at least suspension, of the projected exhibition; but there is a steady revival of at least the woollen manufacture, which, though making but little show, is very substantial. The public are beginning to discover that Irish tweeds, cloths, and blankets are of purer quality than the imported article, of which 'shoddy' forms an essential part. The factory about to be established by Mr Edward Cecil Guinness in this city will no doubt sustain his character and give a wider range and a more vigorous impetus to the manufacture. This project has been maturely considered, and the preparations for it were in progress many months before an exhibition was proposed. It is the only work of an industrial nature which is likely to hold a prominent place in the coming year. Other city improvements, such as the construction of a thoroughfare to connect Dame-street with Christ Church Cathedral and reduce the steep ascent of Corkhill, are to be submitted for the sanction of Parliament, and the opening of a fine new market in the vicinity of Dame-street is the one event to be noted with satisfaction in the annals of the city as memorial of public spirit and commercial enterprise.

A telegram from Drogheda states that application has been made to the Executive by the friends of John Managan, one of the suspects now in Dundalk Goal, who has been elected Mayor of Drogheda, requesting that he might be liberated to allow of his investment with the mayoralty, or that the corporate body might be permitted to perform the ceremony in prison. Replies have been received to the effect that the Government will not allow the carrying out of either course.

The executive of the Irish National Land League of Great Britain has, through Dr. Commins, M.P., repudiated and refused to accept a resolution in favour of the 'no rent' manifesto passed by the Michael Davitt (Glasgow) branch of the Land League. The grounds for repudiation are stated to be that the resolution would endanger the other branches in Great Britain and that the body of Irishmen who adopted it have not been duly affiliated as a branch of the organization. The branch was newly formed, but has not as yet undergone the necessary formality. There is besides a general feeling among the Irish Land Leaguers in Great Britain to leave all matters of policy to the discretion of the responsible leaders of the Irish movement.

A large meeting was held in the League-hall, Liverpool Ladies' Land League, to protest against the imprisonment of Miss Reynolds. Miss Parnell attended and was enthusiastically cheered and presented with a bouquet of flowers. Repeated cheers were also given for Mr. Parnell and for the *United Ireland*. Speaking to a resolution condemnatory of Miss Reynolds's arrest, Miss Parnell described Miss Reynolds's case, and attacked Mr. Herbert Gladstone, whom she characterized as a 'sneaking spalpeen.' A vote of thanks was accorded to Miss Parnell.

At a special meeting of the Brimingham Reform League held on Saturday, an address was adopted to Messrs. Bright and Chamberlain, asking them to use their influence in the Cabinat to obtain 'a speedy release of the Irish political prisoners and the immediate reversal of the coercive policy and repressive action of the Executive in Ireland.' After protesting against various measures which have been adopted in Ireland with the view of restoring order, the address proceeded:—

"Ireland never will be quiet till you release every prisoner, remove all restrictions on freedom of meeting and of the Press, till the people of Ireland have equal laws with the English, till the despotic power of Dublin Castle is abolished, and complete local-self government is established. The first step we would recommend to allay the anger of the Irish people and to escape from all your difficulties is to change your Irish officials, especially the Chief Secretary, and send men who have the love and confidence of the Irish people, Do not be startled if we frankly tell you that if Mr. Joseph Cowen were sent he would act as a magic spell in producing goodwill and restoring order. That one man would do more for peace than 50,000 soldiers. The no-rent cry would soon cease and the Land Bill would have a fair trial, and Ireland would enjoy progress and prosperity."

A committee was appointed to present the address to Messrs. Bright and Chamberlain during their visit to Birmingham.

Writing to a correspondent at Stalybridge who drew his attention to a denial by a Conservative speaker of his statement at Manchester recently that the state of Ireland is by no means so bad as generally represented and that a stranger is exposed to incivility while travelling in the disturbed districts, Mr. Herbert Gladstone, M.P., says:—

"For nearly a month I was traveling through West Cork, Kerry, Limerick, Clare, and Galway; I was continually moving about the country by night as well as by day; I was usually alone, and never had an escort, armed or unarmed, and my name was almost invariably known to the people of the places where I stayed, as my movements were reported almost daily in the local newspapers. What I said in Manchester about the absolute safety of strangers in Ireland is literally true."

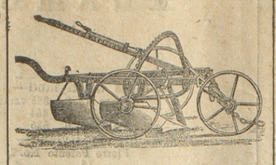
# HOWARD'S IMPROVED AMERICAN PLOUGHS

## Howard's Double Plough.



The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

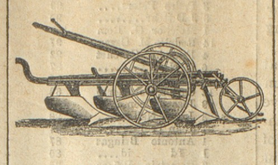
With steel breasts but without coulters
Weight 4½ cwt.

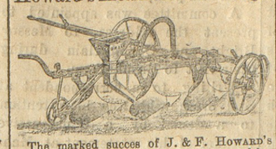
## Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

With steel breasts.....
With steel breasts but without coulters.....
Weight 6½ cwt.

## Howard's Mealie Drill Plough



The marked succes of J. & F. HOWARD's Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

With steel breasts.....
With steel breasts but without coulters.....
Weight 5½ cwt.
Maize Drill, £1 15s. extra.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. "To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d, boxes, 6d. and 1s. each.
